

OUR LIVING ENVIRONMENT. PROBLEMS AND SOLUTIONS.

By English Club of
Klaipeda Children's
Leisure Centre

How do we protect our environment?

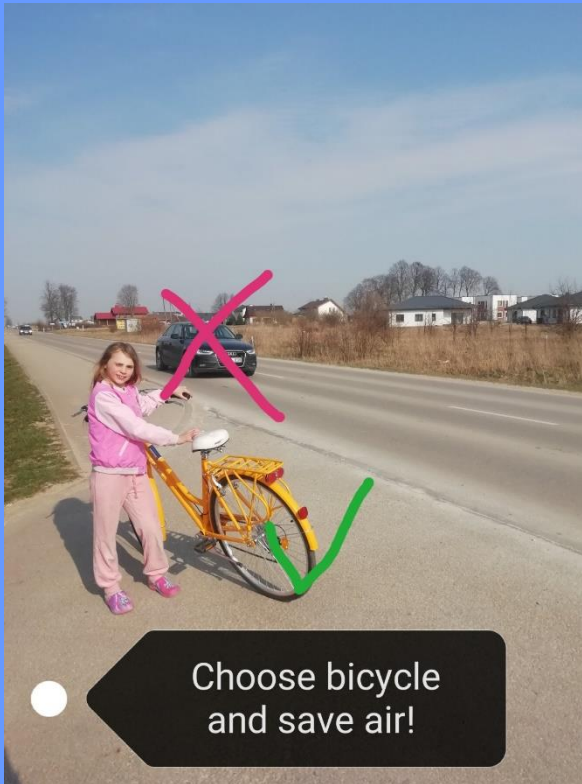

I go shopping with this ecological bag, because I want to save the planet and I do not buy plastic bags.

How do we protect our environment?

- ❖ I go to the forest with my scooter but not on a town bus. So, I take care of the nature and struggle with air pollution.
- ❖ At weekends I go to the forest. I don't just have a good time, but I work a little too. I pick up rubbish and litter.

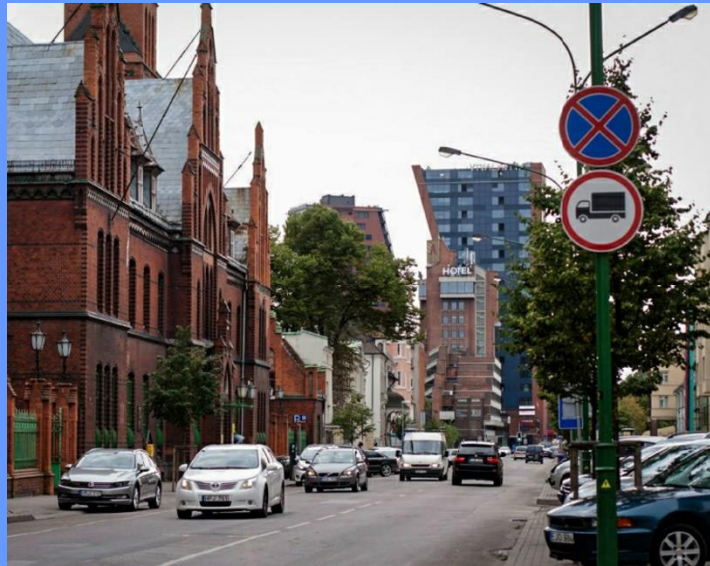

How do we protect our environment?

**I choose to ride my
bicycle and save air.
Do like me!**

How do we protect our environment?

Gasoline cars are very harmful to air. Cars spoil the air very much; breathing in big cities is often difficult due to exhaust gases. That is why I go to school by bus.

How do we protect our environment?

Air pollution is caused by heavy traffic and factories. They release poisonous chemicals into the air.

As a result, harmful gases cause breathing problems, a great risk of cancer and acid rain.

To solve this problem, first of all, use unleaded petrol. In addition, public transport should be improved and more cars should be banned from the city centre.

If we did so, our cities would be a healthier place to live in.

I don't want to pollute air and I choose cycling.

How do we protect our environment?

When I went to the beach I saw people's litter left on the sand. I picked up that rubbish and threw it into the bin.

When I see rubbish around, I throw it into the bin.

How do we protect our environment?

I dispose of used batteries in a dedicated container, because batteries contain at least 22 items that are toxic to the environment and health.

How do we protect our environment?

I recycle
paper and plastic.

How do we protect our environment?

- ❖ I go to school by scooter. I choose the means of transport that does not harm the environment.
- ❖ I use only environmentally friendly paper packaging and only drink water from glass bottles.

**This is how we protect
our environment.**

And what do you do to protect yours?
